

Athens & Dakota

We adopted Athens and Dakota December 26th and they are truly a late Christmas gift!! After driving to Houston to pick them up and a LONG trip back (road work and after holiday traffic), finally home and beginning the adaption to our family and our strange ways.

Athens is truly a snuggler and he is now a talker--actually carries on a conversation with you. We are trying to encourage an "indoor" voice--lol. He is ticklish and will wrestle with you if you tickle him. He finally exhibited his "roll-over" technique, which had us all in stitches. What a lovey dog. We are very fortunate to have gotten him--thank you all.

Dakota is a piece of work. It is kind of like a puppy, horse, Great Dane and old soul all rolled up in a doggie. He loves lying in the sun, toys, can't catch a ball – those darn size 12 feet, and is a cookie monster.

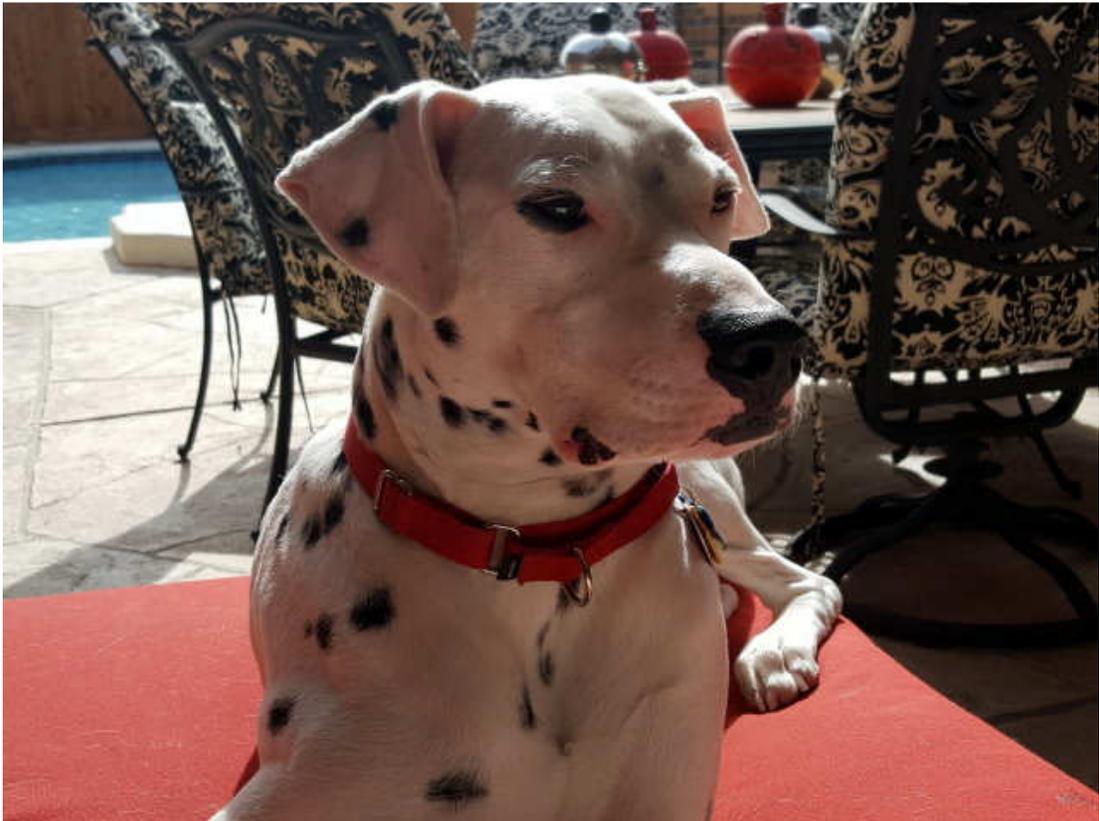

We had a couple of seizures to learn about – but we think we are on the better part of the learning curve on that one. Doesn't matter – we love him. He is also a snuggler – 55 pounds of dog crawling in your lap is a treat. Just be ready!

Thank you Dal Rescue for all you do and for helping us get two precious babies.
