

Hannah

I joined the Gehring family just before all of the world was turned upside down. I could not describe how excited I was to join their adventures- From the moment I laid eyes on them I knew they were a match and my forever home.

I have taken some time to adjust but I have quickly settled in. I love to let everyone know that I'm in charge.

I find myself still a bit timid around new people, but I have become accustomed to my surroundings (the masks everyone wears certainly don't help). I'm a bit on the quiet side, I didn't speak a bark for months - then again, I only bark when I has something really important to point out.

I have to say, I have a pretty sweet gig - I literally goes everywhere with my humans.

Hey, I'm hard at work here- what do you want?

I love to chase squirrels on our walks, and in the back yard.

And I love to snuggle and nose their hands till they pet me even more.

Our thanks to all involved in the quick process of getting Hannah from Colorado to her home in Boise, Idaho. A special thanks to Jeannine Holt for fostering me!
