

# Sapphire

Before adoption, Sapphire once lived on a farm in IL. Sadly she started to help herself to chickens and even desired some goat meat. So, Sweet Sapphire then was attached to a heavy chain to keep her away from everything. Outdoors, all alone, safe from the livestock, but also locked away from real life and people. Finally the owners saw no reason to keep her. Once in foster, Sapphire would do her very best to please her people and she was good with other dogs. She did try to chase the foster cat at first, but that little lady set her straight right away. So then Sapphire had real respect!

We drove to Nebraska from Oklahoma to pick up Sapphire on September 18, 2016. We had only seen photos of her but we talked with her foster mom on the phone. We had to be very sure before we made the long trip to get her. We were afraid she would hate riding after that 550 trip from Nebraska, but she still loves to ride. She went with us on an 1,800-mile road trip last week. Sapphire is a great dog and very smart. She stays right by our side and comes to us when we call her name. She adapted to our schedule quickly. She loves her daily walks, especially to the mailbox 550 feet from the house. We are very lucky to have her.
