

Sherlock

Our happy new beginning with Sherlock came after months of searching for the perfect companion. All of our friends kept telling us that when we found the right one, we would know it. We met several dogs we liked, and would have loved to take them all home, but knew we hadn't yet met "the one."

After scouring the internet for months on various adoption sites, we stumbled across Sherlock's picture. His eyes melted our hearts. He had a curious look on his face, ears perked and his head was tilted toward the camera. We knew we had to meet him!

Our first meeting with Sherlock and his foster mom was at a dog park in Boulder. Matt and I saw them walking toward the park, and knew right away it was him. Sherlock knows exactly how to win the ladies! He fell asleep leaning on me, rolled over without hesitation for belly rubs, and was just the sweetest thing we had ever seen. We know he was the one, and we wanted to take him home that day.

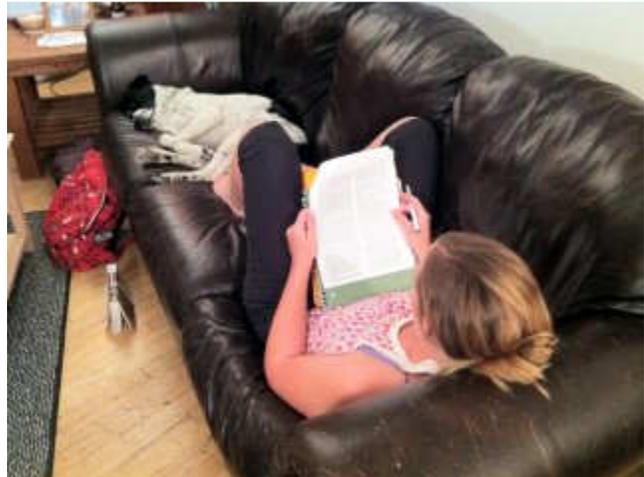

We met with Sherlock's foster mom twice, and she is absolutely amazing! She has given so much to see that dogs in need are given a second chance, and we are so

grateful to her for saving Sherlock's life. We honestly can't imagine a life without him He has added so much joy to our lives, and we are so excited for our new beginning with the best companion!
