

Polly

(aka Black Betty)

Polly (was Black Betty) is simply a joy! She is happy in her new home and we are even happier. She is of course a little stinker but she brings such life and happiness to our home. She has all the wonderful Dalmatian qualities I was missing so much and is filling a void I so desperately needed filled. She is so loving and precious to me. We are working on hand signals, "come to me" and "good girl" at this time and of course potty training. She is very attentive, intelligent and learning much quicker than I expected. Now that we have her I can't imagine life without her. I can't thank you enough for bringing this darling girl to our family! We will forever be grateful to you and your rescue! Thank you for all you do for this wonderful breed! Thank you Beth!
