

Abbie

(aka Loretta)

Abbie came to us as Loretta on March 11, 2016.

She was thin, had skin issues and a tail injured from wagging it too much. Natalie Freshour had been giving her wonderful care while a foster was located. We (Jim and Maggie H.) picked her up and brought her home as a "foster".

Over the course of the next few months, Abbie was able to gain weight, have her tail healed through laser therapy, have her teeth and skin treated and found a forever home with Jim and Maggie.

We are a happy family now, just the 3 of us and forever grateful to Dalmatian Rescue of Colorado, Beth, Tena, Natalie, Towne North Animal Hospital and many others who have been involved in her care.

The pictures attached show a few snapshots of her story from March 11, 2016 to present day. Heartfelt thanks for all you do for countless spotted friends!

As a tribute to Lexie, Kelsie and Rosie, we are fostering this rescued dal from Houston. Meet Penny/Loretta!

Facebook posting from when we first met her.

Look at that contraption on her tail! But it worked.

Abbie's ready to go for a walk.
